SUMMARY

Mobile and Backend Developer with experience in Flutter, Android (Java/Kotlin), and Spring Boot. Skilled in building scalable mobile applications, REST APIs, and microservices. Passionate about developing high-performance, user-friendly apps and solving complex problems using clean and efficient code.

EXPERIENCE

Virtual Experience

JPMorgan Chase & Co.

- Built Kafka consumer using Spring Boot
- Tested REST APIs with H2 database.

PROJECT

Flutter E-Commerce App

- Developed cross-platform mobile app using Flutter
- Integrated REST APIs for product listing and cart management
- Implemented Firebase Authentication
- Designed responsive UI for Android devices.

Android Banking App

- Built secure mobile banking application
- Integrated backend APIs for real-time data
- Implemented authentication and transaction features.

E-Commerce Backend System

- Developed backend services for product, cart, and orders
- Implemented JWT-based authentication
- Optimized database performance.

Microservices Order Management System

- Built scalable microservices architecture
- Implemented REST-based service communication.

EDUCATION

B.Tech in Information Technology

AKTU • 2028 • 7.8

- CGPA: 7.8.

AWARDS & HONORS

Solved 200+ problems on LeetCode

Built multiple mobile and backend projects

Participated in SIH and GIH hackathons

BHARAT hackathon 3rd position

IILM university

SKILLS

Mobile Development: Flutter, Dart, Android Development, Java, Kotlin, UI/UX Design, Responsive Layouts

Backend Development: Java, Spring Boot, Spring MVC, Hibernate, REST APIs, Microservices

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, GitHub, Docker, Firebase, Postman, Maven

Concepts: Data Structures & Algorithms, OOP, Multithreading, Design Patterns
